Since the decline and fall of the Soviet Empire in the early 1990s, Russia has become 1 as the sick man of Europe. According to a study 2 in 1997, the description is not simply a political metaphor; it is a scientific fact. The grim news report was 3 to Boris Yeltsin by a Presidential Commission on Women, the Family and Demography, a blue-ribbon panel of top government officials, academics and other 4. In 1997, the commission announced, official life 5 in Russia—59 years for men and a little over 73 for women—slipped behind Europe, the U.S. and all of Asia, except Afghanistan and Cambodia.

Deng's conservative rivals took advantage of the massacre to pull back the economic reforms—or 11 slow their pace. But Deng, though 12 frail, fought back. In February 1992 he led high officials on a 13 of Shenzhen and Zhuhai, his prosperous economic centers, and urged Chinese to "seize the opportunity" of such free-market examples. The result was an explosion of economic growth and the 14 of "Deng Xiaoping Thought" to gospel, an ironic 15 for a man who shuddered at "excess of personality." But it was the final somersault he had to perform to ensure the survival of his legacy.
