

## Acknowledgments

My sincerest thanks are given to my advisor--Dr. Li-yi Huang, who is the full-time professor in the department of English in National Chengchi University, for her patient guidance and care throughout my research. I also want to thank Prof. David Wible and Prof. Hsueh-ying Yu, for their precious suggestions to my thesis. In addition, my gratitude goes to Prof. Chiung-Chih Huang, for her inspiring lectures in the course --Second Language Acquisition, which motivated me to do this research. I also appreciate Bryan Miller, who proof-read my thesis without taking any payment. Furthermore, I thank Andrew Orr, my classmate Chiu-hui Wu, my sister Li-juan Huang, and teacher Wen-ling Li, for their help in gathering samples of this study. I also thank Chuo-chi Huang and Liang-feng Chen, for their encouragement throughout this work.

Finally, I want to thank my family. The support from them gave me warmth and strength in finishing the study.
