Devoting all effort to the thesis, I am finally allowed to express my gratitude to those who have believed in and supported me. I owe sincere and deepest appreciation to my thesis advisor, Dr. Chieh-yue Yeh. Without her constant encouragement, inspiring guidance, insightful suggestions, and considerable support, I would never have been able to finish this work.

My appreciation also goes to the two committee members of my thesis, Dr. Chin-chi Chao and Dr. Yu-cheng Sieh. They generously granted their precious advice and suggestion to this work so as to improve my thesis.

I would also want to express my heartful thanks to all the wonderful teachers in my life, who have instructed, inspired, and enlightened me since I was a student. Their passion for teaching and unselfish love for students motivate me to become a better teacher.

I would also want to express my gratitude to my friends and my colleagues in Taipei Municipal Shilin High School of Commerce. During these years, their consideration and encouragement have helped me go through many tough times. Furthermore, I would like to appreciate my participants, the students in tenth grade in the year 2014. Without their participation, this work could not have been possible.

Lastly, I would like to express my greatest appreciation to my family, including my parents, my younger sister, and my husband. With their unconditional love and support, I could finish the thesis and pursue my goals in life.
