

Table of Contents

Abstract	v
摘要	vi
Table of Contents	vii
Chapter 1. Introduction	1
1.1 Research Objective	4
1.2 Organization of the Dissertation	7
Chapter 2. Literature Review	9
Chapter 3 Testing on Interval Data (I)	14
3.1. Fuzzy Mean and Fuzzy Variance	14
3.2. Interval's Confidence Interval.....	17
3.3. Testing Hypotheses about Mean and Variance with Interval Data	18
3.4. Illustration Examples	21
Chapter 4. Testing on Interval Data (II).....	24
4.1. Fuzzy Normal Distribution	24
4.2. Sample Mean and Sample Variance for Interval Data	24
4.2.1. Method of Computing Sample Mean in Interval Form	24
4.2.2. Method of Computing Sample Mean in Interval Form	25
4.3. Testing hypotheses on mean and variance with interval data	31
4.3.1. Testing Hypothesis for interval sample mean	31
4.3.2. Testing Hypothesis for interval sample variance	34
4.4. Empirical studies.....	36
Chapter 5. Testing on Discrete and Continuous Fuzzy Numbers	40
5.1. Fuzzy Data with Soft Computing	40
5.1.1. Membership Function	40
5.2. Fuzzy Mean.....	42
5.3. Some Properties and Soft Computing of Fuzzy Data	45
5.3.1. Fuzzy Equal and Fuzzy Belongs for Fuzzy Data.....	45
5.3.2. Some Properties about Fuzzy Data.....	48
5.4. Testing Hypothesis with Fuzzy Data	51
5.4.1. Testing Hypothesis for Fuzzy Equal	51
5.4.2. Testing Hypothesis for Fuzzy Belongs	54
5.5. Empirical Studies	55
Chapter 6. Conclusions	60
Reference	62
