

TABLE OF CONTENTS

CHAPTER 1	Introduction.....	1
1.1.	Background.....	2
1.2.	Motivation	4
1.3.	Organization	5
CHAPTER 2	Related Work.....	7
2.1.	Behavior Studies about 802.16 Mesh mode.....	7
2.2.	Performance Studies about 802.16 Mesh mode	9
CHAPTER 3	Analyze IEEE 802.16 Distributed Scheduling Algorithm..	10
3.1.	Global Scenario	10
3.2.	MSH-DSCH in MAC Frame Structure	11
3.3.	Next Transmission Time and Transmission Holdoff Time	14
3.3.1.	Next Xmt Time	15
3.3.2.	Xmt Holdoff Time	16
3.3.3.	Next Xmt Time and Xmt Holdoff Time on time axis.....	16
3.4.	Competing Behavior and Scheduling Algorithm	17
3.5.	Three-Way Handshaking	22
CHAPTER 4	Mathematic Model.....	25
4.1.	Markov Chain.....	25

4.2.	Mathematical Evaluation.....	30
4.2.1.	Probability Theory and Assumptions	31
4.2.2.	Delay Time	32
4.2.3.	The Success Probability of MSH-DSCH Transmission	35
CHAPTER 5	Simulation Results	38
5.1.	Delay Time	38
5.2.	The Success Probability of MSH-DSCH Transmission.....	44
CHAPTER 6	Conclusions and Future Works	47

LIST OF TABLES

Table 3.1: Abbreviation defined in the 802.16 Standard.....	17
Table 3.2: The abbreviations in the flowchart.....	22
Table 4.1: The Notation definitions in the Markov Chain	27
Table 4.2: Notations of equations.....	31
Table 5.1: Comparison between original and proposed evaluation	43

LIST OF FIGURES

Figure 1.1: IEEE 802.16 Mesh Mode Topology	4
Figure 2.1: Mesh distributed election-based scheduling concept depicted by [5]	8
Figure 3.1 Data Subframe and Control Subframe.....	11
Figure 3.2: Network Control subframe and Schedule Control subframe	13
Figure 3.3: MSH-DSCH in the Schedule control subframe	14
Figure 3.4: Next Xmt Mx and Xmt holdoff exponent in the MSH-DSCH	15
Figure 3.5: Next Xmt Time and Xmt Holdoff Time	16
Figure 3.6: One node results in collision with neighbors	19
Figure 3.7: The flowchart of competing algorithm-1	20
Figure 3.8 :The flowchart of competing algorithm-2	21
Figure 3.9: Request IE Message.....	23
Figure 3.10: Three-way handshaking.....	24
Figure 4.1: Each state corresponds to the Next Xmt Time-1	26
Figure 4.2: One vertical chain	28
Figure 4.3: Each state corresponds to the Next Xmt Time-2.....	29
Figure 4.4 : Two vertical chains	29
Figure 4.5: The Markov Chain.....	30
Figure 4.6: The transition probability of certain state.....	36
Figure 5.1: The delay time of opportunities between simulation and mathematic model-1.....	40

Figure 5.2: The error rate between simulation and mathematic model-1	40
Figure 5.3: The delay time of opportunities between simulation and mathematic model-2.....	41
Figure 5.4: The delay time of opportunities between simulation and mathematic model-2.....	41
Figure 5.5: The delay time of opportunities between simulation and mathematic model-3.....	42
Figure 5.6: The delay time of opportunities between simulation and mathematic model-3.....	42
Figure 5.7: Comparison between original and proposed evaluation	44
Figure 5.8: The mean of success probability that a node transmit MSH-DSCH	45
Figure 5.9: The mean of success probability when x is non-identical.....	46
