TABLE OF CONTENTS

Abstract……..……. i
List of Abbreviations ……. v
List of Figures……. vi
List of Tables……..……. vii
Acknowledgements……. x
Dedication xii
CHAPTER
ONE INTRODUCTION…… 1
TWO LITERATURE REVIEWS ……..…… 8
I. Fuzzy Sets ……. 8
A. Fuzzy Sets and Crisp Sets…… 8
B. Fuzzy Numbers……. 9
C. Fuzzy Variables and Linguistic Variables……. 11
II. Membership Grades……..…… 12
A. The Similarity View……..…… 13
B. The Likelihood View……. 15
C. The Random Set View……..…… 15
D. The Measurement View……..……... 16
III. Rating Scales……..…… 17
A. Definitions……...……. 17
B. Scaling of Rating Scales……. 18
THREE METHOD…… 22
I. Subjects……..……. 22
A. Depressed Samples……...……. 22
B. Non-depressed Samples……. 22
II. Measures……. 22
III. Scaling……..……. 23
A. Traditional and Fuzzy Scoring…….. 23
B. Fuzzy Partial Credit Scaling…….. 24
IV. Procedures…… 28
V. Analysis……..……. 28
FOUR RESULTS……... 32
I. Data Examinations……... 32
A. Item Analysis of BDI……. 32

B. Dimensionality of BDI……... 38
C. Data Screening.……. 41
II. Construction of FPCS……... 43
III. Study One: The Reliability of FPCS……..... 47
IV. Study Two: The Validity of FPCS……..... 49
A. Classification of the depressed and the non-depressed……... 49
B. The Classification of Severity of Depression Symptoms…... 51
V. Study Three: Fuzzy C-means Clustering…….. 53
FIVE DISCUSSION…….. 57
I. Overall Conclusions…….. 57
II. Results of Study One……. 58
III. Results of Study Two…… 59
IV. Results of Study Three…….. 62
V. Limitations and Future Directions…… 64
Reference……..……... 65
Appendix A : The Instrument……. 70

List of Abbreviations

BDI	Beck Depression Inventory
CES-D	Center for Epidemiologic Studies Depression Scale
CFA	Confirmatory Factor Analysis
CFI	Comparative Fit Index
COG	Center of Gravity Method
CTT	Classical Test Theory
FCM	Fuzzy C-Means
FPCS	Fuzzy Partial Credit Scaling
GPCM	Generalized Partial Credit Model
GRM	Graded Response Model
IRT	Item Response Theory
PCM	Partial Credit Model
RMSEA	Root Mean Square Error of Approximation
SEM	Structural Equation Modeling

List of Tables

Table 2.1 An Example of Rating Scales……..……. 19
Table 2.2 An Example of Likert Scales…….…… 19
Table 2.3 Pass/fail Scores for a Three-step Item *i*……. 22
Table 3.1 Examples of Fuzzy and Traditional Scoring……. 24
Table 3.2 A Hypothetical Example of FPCS……. 28
Table 4.1 Item Fit of BDI……. 36
Table 4.2 Descriptive Statistics of Two Subscales of BDI…… 42
Table 4.3 Estimated Step Parameters in BDI…… 44
Table 4.4 Person-item Map……... 45
Table 4.5 Fuzzy Numbers Defuzzified by COG……... 47
Table 4.6 Reliability of BDI…….. 48
Table 4.7 Estimated Logistic Regression Coefficients……. 51
Table 4.7 Classification Table …….. 51
Table 4.8 Estimated Logistic Regression Coefficients …… 51
Table 4.8 Classification Table (Raw Score)…….. 51
Table 4.9 Group Statistics……. 53
Table 4.10 Classification Results…….. 53
Table 4.11 Summary of Cluster Validity……... 56
Table 4.12 Classification Results…….. 56

List of Figures

Figure 2.1	Examples of Fuzzy Numbers in Various Contexts…….	10
Figure 2.2	Triangular and Trapezoidal Fuzzy Number…….	10
Figure 2.3	Membership Function for a Fuzzy Set of Speed Descriptors…..	12
Figure 2.4	α-cut of Fuzzy Set A……..	16
Figure 3.1	Calculations of Step Parameters…….…….	27
Figure 3.2	Constructions of triangular fuzzy numbers……	27
Figure 4.1	Scree Plot of Eigenvlues…….	40
Figure 4.2	CFA of BDI Based on Depressive Sample……..	40
Figure 4.3	CFA of BDI Based on Non-depressive Sample……...	41
