

<Content of thesis>

| | |
|---|-----------|
| Chapter One : Introduction..... | 3 |
| <1> Study motives..... | 3 |
| <2> Study objectives..... | 6 |
| <3> Conceptual framework..... | 6 |
| | |
| Chapter Two : Literature Review..... | 8 |
| <1> Why is risk costly to insurance company | 8 |
| 1.1 CAPM theory | 8 |
| <2> The reasons why risk is costly to insurance company | 9 |
| 2.1 Tax effect-convex | 19 |
| 2.2 Cost of financial distress | 11 |
| 2.3 Agency cost | 11 |
| 2.4 Cost of external financing | 13 |
| <3> The cost of risks to insurers | 14 |
| 3.1 Concept of cost of risks | 14 |
| 3.2 Components of the costs of underwriting/pure risks of non-life insurance company | 16 |
| <4> Assessment of risk management strategy | 19 |
| | |
| Chapter Three : A Study of Protected Cell Company | 20 |
| <1> Concept of Protected Cell Company..... | 20 |
| <2> Development of Protected Cell Company..... | 22 |
| <3> Definition of Protected Cell Company..... | 25 |
| <4> Characteristics of Protected Cell Company..... | 29 |
| <5> Usage of Protected Cell Company..... | 32 |

| | |
|---|----|
| <6> Advantage and disadvantage of Protected Cell Company..... | 37 |
| 6.1 Advantage..... | 37 |
| 6.2 Disadvantage..... | 40 |
| <7> Conclusion..... | 42 |

Chapter Four : Methodology..... 44

| | |
|---|----|
| <1> Assessment of risk management strategy | |
| — comparing its cost of risks | 44 |
| <2> Evaluation the cost of risks for PCC and commercial reinsurance..... | 46 |
| 2.1 Evaluation the cost of risks for commercial reinsurance..... | 46 |
| 2.2 Evaluation the costs of risks for using PCC as rent-a-captive..... | 48 |
| 2.3 The cost of risks which PCC can decrease..... | 50 |
| 2.4 Illustration of comparing the cost of risks of PCC with commercial reinsurance..... | 51 |
| <3> Empirical analysis for the difference in cost of risk between PCC as rent-a-captive and commercial reinsurance | 55 |
| 3.1 Introduction..... | 55 |
| 3.2 Research assumptions..... | 56 |
| <4> Definitions of variables..... | 62 |
| <5> Data collection..... | 64 |
| <6> Simulation of scenarios..... | 66 |

Chapter Five : Empirical Analysis..... 70

| | |
|---|----|
| <1> Overview of empirical results..... | 70 |
| <2> Factor analysis for empirical results..... | 78 |
| 2.1 Factor analysis for empirical results of scenario1..... | 78 |

| | |
|--|-----------|
| 2.2 Additional results for empirical analysis of variance scenarios..... | 80 |
| 2.2.1 Ceding term and condition..... | 80 |
| 2.2.2 Retrocession..... | 83 |
| 2.2.3 Operation period..... | 86 |
| 2.2.4 Paid-up capital..... | 89 |
| 2.2.5 Conclusion..... | 90 |
| Chapter Six : Conclusion..... | 92 |
| Reference..... | 94 |
