

Contents

CHAPTER 1: INTRODUCTION	1
1.1 Research Motivations.....	1
1.2 Research Objectives.....	2
1.3 Research Questions.....	3
1.4 Research Arrangement	3
CHAPTER 2: LITERATURE REVIEW	4
2.1 Use of Electronic Procurement Systems.....	4
2.2 Studies of IT and Uncertainty	5
2.3 The Fit Concept.....	7
CHAPTER 3: DEVELOPMENT OF THE BUSINESS-IT FIT FREAMWROK	10
3.1 Research Model	10
3.2 Content Analysis of Technology, Uncertainty and Benefits	11
3.2 External Uncertainty vs. IT Environment.....	13
3.2.1 Environment uncertainty.....	13
3.2.2 Partnership uncertainty	13
3.3 Internal Uncertainty vs. IT Environment.....	14
3.3.1 Process uncertainty	14
3.3.2 Know-how/Knowledge	15
CHAPTER 4: RESEARCH ANALYSIS	16
4.1 Research Methodology	16
4.1.1 Sample.....	17
4.1.2 Data Collection	18
4.2 System Background in the Cases.....	19
4.3 Research Analysis	20
4.3.1 Cases Background.....	20
4.3.2 Framework Application	21
CHAPTER 5: DISCUSSION.....	31
5.1 Cross-Case Analysis Results.....	31
5.2 Managerial Implications	34
CHAPTER 6: CONCLUSION	35
6.1 Summary	35
6.2 Limitations and Implications of Future Research.....	35
References.....	37
Appendix A: Question List of the Phone Interview.....	41
Appendix B: Interview Contents and Framework Application (Chinese).....	42

Table Contents

Table 3-1. Item measures for business IT fit framework	12
Table 4-1. Description of the organizations in the sample.....	17
Table 4-2. Validities and reliability tests.....	18
Table 4-3. Cross-case analysis results.....	30

Figure contents

Figure 2-1. The comparison between different EP technologies	5
Figure 3-1. Research framework for the development of business IT fit	10
Figure 4-1. The research road map	16
Figure 4-2. The scope of the central firm's electronic procurement.....	19
Figure 4-3. The uncertainty in terms of product customization.....	22
Figure 4-4. The uncertainty in terms of dynamics of demand.....	23
Figure 4-5. The uncertainty in terms of dynamics of supply	23
Figure 4-6. The uncertainty in terms of reciprocal investment.....	24
Figure 4-7. The uncertainty in terms of trust	25
Figure 4-8. The uncertainty in terms of dynamics of process.....	25
Figure 4-9. The uncertainty in terms of dynamics of product	26
Figure 4-10. The uncertainty in terms of complexity of product.....	27
Figure 4-11. The knowledge in terms of technical IT skills	27
Figure 4-12. The knowledge in terms of managerial IT skills.....	28
Figure 4-13. The performance in terms of operational benefits	29
Figure 5-1. Case results of the four dimensions and performance	32
Figure 6-1. Percentages of order dollar amount placed to suppliers via alternative electronic means in Taiwan manufacturing industry	36
Figure 6-2. Percentages of order dollar amount received from customers via alternative electronic operation in Taiwan manufacturing industry.....	36
