List of Tables

2.1	The Changes in Premium Rates	52
2.2	Variable Definition	53
2.3	Full Sample Descriptive Statistics	54
2.4	Descriptive Statistics by Gender	55
2.5	Descriptive Statistics of the Sample of Household Heads and Their Spouses	56
2.6	Full Sample Results	57
2.7	Results by Gender and Marital Status	58
2.8	Results for Household Heads and Their Spouses by Gender and the Presence of Non-working Children — Sample of Household Heads and Their Spouses	59
2.9	Results for Single Male by Wage Rate Quartiles	60
2.10	Results for Married Male by Wage Rate Quartiles	61
2.11	Results for Single Female by Wage Rate Quartiles	62
2.12	Results for Married Female by Wage Rate Quartiles	63

LIST OF TABLES

2.13 Results for Married Male without Non-working Children by Wage Rate Quartiles — Sample of Household Heads and Their Spouses . . .	64
2.14 Results for Married Male with Non-working Children by Wage Rate Quartiles — Sample of Household Heads and Their Spouses	65
2.15 Results for Married Female without Non-working Children by Wage Rate Quartiles — Sample of Household Heads and Their Spouses . . .	66
2.16 Results for Married Female with Non-working Children by Wage Rate Quartiles — Sample of Household Heads and Their Spouses	67
2.17 Full Sample Estimation Results	68
2.18 Estimation Results for Single Male	69
2.19 Estimation Results for Married Male	70
2.20 Estimation Results for Single Female	71
2.21 Estimation Results for Married Female	72
2.22 Estimation Results for Married Male without Non-working Children .	73
2.23 Estimation Results for Married Male with Non-working Children . . .	74
2.24 Estimation Results for Married Female without Non-working Children	75
2.25 Estimation Results for Married Female with Non-working Children .	76
2.26 Full Sample Estimation of Multinomial Logit	77
2.27 Multinomial Logit Estimation for Single Male	78
2.28 Multinomial Logit Estimation for Married Male	79
2.29 Multinomial Logit Estimation for Single Female	80
2.30 Multinomial Logit Estimation for Married Female	81

LIST OF TABLES

2.31 Multinomial Logit Estimation for Married Male without Non-working
Children 82

2.32 Multinomial Logit Estimation for Married Male with Non-working
Children 83

2.33 Multinomial Logit Estimation for Married Female without Non-working
Children 84

2.34 Multinomial Logit Estimation for Married Female with Non-working
Children 85

3.1 Variable Definition 134

3.2 Full Sample Descriptive Statistics 135

3.3 Worker and Job Turnover Rates 136

3.4 Relative Worker and Job Turnover Rates of LSL-Covered and Non-
LSL-Covered Industries 137

3.5 Difference-in-Difference Estimates of the Effects of LSL, CLA and
LIL for Establishments with 1–29 Employees 138

3.6 Difference-in-Difference Estimates of the Effects of LSL, CLA and
LIL for Establishments with 30–99 Employees 139

3.7 Difference-in-Difference Estimates of the Effects of LSL, CLA and
LIL for Establishments with 100 or more Employees 140

3.8 Difference-in-Difference-in-Difference Estimates of the Differential Im-
pacts on Establishments of Different Sizes 141

3.9 Estimation Results of the EPL Impacts on the Rate of Worker Flows 142

3.10 Estimation Results of the EPL Impacts on the Rate of Job Reallocation 143

LIST OF TABLES

3.11 Estimation Results of the EPL Impacts on the Rate of Churning Flows 144

3.12 Difference-in-Difference Estimates of the Effects of LSL, CLA and LIL for Establishments with 3–23 Employees 145

3.13 Difference-in-Difference Estimates of the Effects of LSL, CLA and LIL for Establishments with 37–79 Employees 146

3.14 Difference-in-Difference Estimates of the Effects of LSL, CLA and LIL for Establishments with 121 or more Employees 147

3.15 Difference-in-Difference-in-Difference Estimates of the Differential Impacts on Establishments of Different Sizes 148

3.16 Estimation Results of the EPL Impacts on the Rate of Worker Flows — Accounting for LSL’s Effect on Firm Size 149

3.17 Estimation Results of the EPL Impacts on the Rate of Job Reallocation — Accounting for LSL’s Effect on Firm Size 150

3.18 Estimation Results of the EPL Impacts on the Rate of Churning Flows — Accounting for LSL’s Effect on Firm Size 151

List of Figures

2.1	Real Wage Rates of Public Sector and Private Sector Employees . . .	86
2.2	Real Wage Rates of Public Sector and Private Sector Male Employees	87
2.3	Real Wage Rates of Public Sector and Private Sector Female Employees	88
2.4	Work Hours of Public Sector and Private Sector Employees	89
2.5	Work Hours of Public Sector and Private Sector Male Employees . . .	90
2.6	Work Hours of Public Sector and Private Sector Female Employees .	91
3.1	The Changes of Worker Flows for Establishments with 1-29 Employees.	152
3.2	The Changes of Worker Flows for Establishments with 30-99 Employees.	153
3.3	The Changes of Worker Flows for Establishments with 100 or more Employees.	154
3.4	Difference in the Rate of Worker Flows between LSL-Covered and Non-LSL-Covered Industries	155
3.5	The Changes of Job Reallocation for Establishments with 1-29 Em- ployees.	156
3.6	The Changes of Job Reallocation for Establishments with 30-99 Em- ployees.	157

LIST OF FIGURES

3.7 The Changes of Job Reallocation for Establishments with 100 or more Employees. 158

3.8 Difference in the Rate of Job Reallocation between LSL-Covered and Non-LSL-Covered Industries 159

3.9 The Changes of Churning Flows for Establishments with 1-29 Employees. 160

3.10 The Changes of Churning Flows for Establishments with 30-99 Employees. 161

3.11 The Changes of Churning Flows for Establishments with 100 or more Employees. 162

3.12 Difference in the Rate of Churning Flows between LSL-Covered and Non-LSL-Covered Industries 163
