

## Figures

Figure 1. The timing of word presentations for three sample sentences and typical ERP waveforms across the entire sentence .....	13
Figure 2. English neighborhood size effect on the ERP waveforms .....	16
Figure 3. An example illustrating the neighbors, neighborhood size and higher frequency neighbors .....	18
Figure 4. Studies on lexical ambiguity .....	30
Figure 5. Studies on lexical ambiguity in Chinese .....	33
Figure 6. Mean priming of dominant and subordinate associates at 35- and 750-msec for the left and right visual field.....	35
Figure 7. Effect of ending types.....	37
Figure 8. Hypotheses of hemispheric semantic processing. ....	37
Figure 9. Schema of the electrode array used in the experiment. ....	42
Figure 10. Bar chart of RTs for the sense effect in the RVF and LVF .....	44
Figure 11. Bar chart of RTs for the lexicality effect in the RVF and LVF .....	45
Figure 12. Grand average of ERPs elicited by LVF and RVF in N170s .....	47
Figure 13. Examples of P200 at FZ in the RVF (upper) and LVF (lower) .....	48
Figure 14. Examples of N400 at CPZ in the RVF (upper) and LVF (lower) .....	49
Figure 15. Grand average ERPs elicited by few and many senses in the LH .....	50
Figure 16. Grand average ERPs elicited by few and many senses in the RH .....	51
Figure 17. Brief illustration of single-entry (the left) and separate-entry (the right) representation of senses .....	53
Figure 18. RTs for the words and nonwords for each probability-density condition..	55
Figure 19. Bar chart of RTs for visual field and number of senses .....	61
Figure 20. Bar chart of accuracy for visual field and number of senses .....	61
Figure 21. N170 effects at PO5, PO6. ....	62
Figure 22. P200 for the RVF (upper) and LVF (lower) presentation .....	63
Figure 23. N400 for the RVF (upper) and LVF (lower) presentation .....	64
Figure 24. Sketch of possible cortical representations of nouns and verbs .....	68
Figure 25. Bar chart of RTs for sense effect in visual field and word class .....	70
Figure 26. Bar chart of accuracy for sense effect in visual field and word class .....	71
Figure 27. N400 for the RVF (upper) and LVF (lower) presentation in nouns .....	72
Figure 28. Grand average of ERPs elicited by few/many senses of nouns in RVF...73	

Figure 29. Grand average of ERPs elicited by few/many senses of nouns in LVF ...73  
Figure 30. N400 for the RVF (upper) and LVF (lower) presentation in verbs .....74  
Figure 31. Grand average of ERPs elicited by few/many senses of verbs in RVF ...75  
Figure 32. Grand average of ERPs elicited by few/many senses of verbs in LVF ...75
