

## ACKNOWLEDGMENTS

Writing a piece of thesis in English takes a lot of time and efforts. Searching for the required references, citations and economic data is the prerequisite. Organizing a great many articles and translating a variety of proper nouns need one's devotion as well.

I am really indebted to not only the advisor, Jen-Te Hwang, but also the committees of oral defense, Jung-Feng Chung and Tsung-Ta Yen. They spend their precious time and endeavors to check and revise this piece of thesis. Words can't completely describe what is on my mind. Only when I try all my best to succeed in writing this thesis, will I pay back all my gratitude to them.

I extremely appreciate Veronia Fang and my family for their encouragement on my daily matters. With their support and company, I can succeed in not only passing the entrance exam on graduate school but also achieving the honor of being a Master. In addition, I am grateful to Claire Lin and Allen Yeh for their help with my writing the thesis. When I encounter obstacles on my school work or thesis research, they are always willing to do me a favor.

Eventually, I am obliged to my classmates: Kevin Chen, Dennis Lu, Heng-Chang Chou, Apolo Chang, Blake Chen, Andy Kao, Kage Chen and James Tsai. With their aid and concern, I can lead a splendid life and leave a marvelous memory in phase of graduate school.

Due to a lot of assistances from friends and family, I can do all my best to finish the thesis, the representative work of a graduate student.
