There are many people who deserve thanks for helping me and without whom this thesis would not have been possible. Prof. Leonard Chu served as my thesis advisor throughout the whole process and gave me a lot of valuable suggestions that helped to improve the study. I also value greatly the advice and comments of Prof. Se-wan Sun and Prof. Sherman Hwang who were my thesis' examiners.

Thanks to my friends and classmates who helped me to search the movies that were not always easy to find. Thanks to librarians, IMICS office, and my two coders who helped me in the initial phase of the research.
